PROFILE

I am a UX and Product Designer with 3+ years of experience across medtech, industrial, and enterprise software domains. Grounded in human-centred design methods: user research, interaction design, prototyping, and usability testing. With a distinct ability to bridge physical product thinking and digital interface design. MA in Integrated Design, Hochschule Anhalt Dessau (2026). Based in Germany with full work authorisation, available immediately for permanent UI/UX Designer or Product Designer position. Fluent in German (B2); available

WORK EXPERIENCE

UX Research Intern

Aug – Sep 2025

GADDR (Neurotask AI) · Remote (2-month summer internship contract)

- Conducted end-to-end UX research for an AI-driven notetaking tool targeting knowledge workers.
- Mapped user journeys, ran competitive analysis, and translated findings into prioritised design recommendations.
- Collaborated remotely with cross-functional product and design teams.

Product Designer

Feb – Jul 2024

iOrbit Digital Technologies · Bangalore, India

- Designed medtech devices and digital interfaces to ISO usability standards
- Translated functional and customer requirements into manufacturable products
- Integrated UX and physical product workflows to align digital touchpoints with hardware constraints
- Contributed to design strategy and scaling of product development pipelines

UI/UX Designer

May – June 2024 (Project-Based Contract)

Aeon Software Pvt. Ltd. / FIDUS LMS · Bangalore, India

- Led UX redesign of a Moodle-based B2B e-learning platform for aviation professionals.
- Ran user research, stakeholder workshops, and journey mapping with learners, instructors, and admins.
- Conducted stakeholder interviews and workflow analysis to define system requirements.
- Delivered a functional interactive prototype in Figma within 4 weeks; proposed accessibility-first roadmap..
- Delivered a production-ready MVP within defined timelines.

Industrial & UX Designer

Mar 2021 – Apr 2023

Futuring Design Pvt. Ltd. · Pune, India

- Designed industrial and consumer products such as pharmaceutical machinery, exercise equipment, smart locks for Godrej, and kitchen tools for Hawkins.
- Initiated and led an HMI redesign for a laboratory machine by translating complex manual workflows into digital interactions via journey mapping, information hierarchy design, and usability testing.
- Led ergonomic and DFM studies; created high-fidelity prototypes in Rhino, Fusion 360, and Figma.
- Collaborated with engineering, production, and client teams to establish and refine product concepts.
- Presented design concepts, prototypes, and rationale to internal teams and customers.
- Documented design processes, specifications, revisions to support transition from ideation to production.

Industrial Designer (Internship)

Jun – Sep 2020

Tusker Manual Material Handling · Pune, India

- Ergonomic analysis and design recommendations for articulated forklifts and pallet stackers.
- Supported DFM, CAD visualisation, and modular component strategies in collaboration with engineers.

EDUCATION

MA Integrated Design:

Hochschule Anhalt, Dessau, Germany

Oct 2024 – Sep 2026

Focus: Systems Thinking · Speculative Design · Rapid Prototyping · Critical Making

Bachelor of Design-Product Design

Symbiosis International University · Pune, India

2016 – 2020

Focus: Ergonomics · CAD/CAM · UX · Manufacturing

SKILLS

Design Tools:

Figma, Miro, Adobe XD, Adobe Creative Suite, Rhino, grasshopper, Fusion 360, Blender, KeyShot, Framer, Ai tools

UX & Research

User Research, Journey Mapping, Interaction Design, Wireframing, Prototyping, Usability Testing, Accessibility, Information Architecture

Prototyping Methods

3D Printing, Laser Cutting, Model Making, MIG/TIG Welding, Woodworking

Methods

Human-Centred Design, Systems Thinking, Speculative Design, Design Thinking

LANGUAGES

German: B2, workplace proficiency

English: C2, full professional proficiency

Marathi: Native

AVAILABILITY & WORK STATUS

Post-study residence permit from September 2026. No employer visa sponsorship required. Available immediately. Open to relocation. Seeking a permanent UX/Product Designer role from September 2026 onwards.
